HUSQVARNA RIDER 214 TC LIMITED EDITION

We are celebrating more than half a million Riders sold with this Limited Edition, combining a highly efficient engine with an extremely attractive price. The 214TC edition offers all the true characteristics of the Rider, making it exceptionally powerful and versatile. Enjoy the ride!

Combi deck 94 cm.
 Briggs & Stratton, Intek V-Twin 12.8 kW, Automatic Transmission (Hydrostatic)

€ 4,299.⁹⁹

FREE TRAILER
 WORTH €299.99

Briggs & Stratton V-Twin Intek Engine Inside
 12.8kw @ 3100rpm

Free SpaciousTrailer made of sturdy steel with tippable lift worth **€299.99** with every Husqvarna Rider sold in March/April - While stocks last, enquire in-store for more details

HUSQVARNA RIDER 213c

Efficient Rider with 94 cm Combi cutting deck, offering first-class BioClip® and rear ejection cutting. Suitable for home- and landowners who require high efficiency, ease of use, superior manoeuvrability and a truly enjoyable ride.

Briggs & Stratton Intek 6.7kw, Automatic Transmission (Hydrostatic)

*Price quoted includes 94cm deck

HUSQVARNA RIDER 318

Navigates around flowerbeds, bushes and trees. Handles tight spaces and offers excellent traction even in slopes and wet conditions. Front-mounted cutting deck gives an excellent overview. Easy to use, responsive and intuitive, thanks to a number of advanced features.

Briggs & Stratton Endurance 4175, 9.6kw, Automatic Transmission (Hydrostatic)

*Price quoted includes 103cm deck. Optional decks available

A clean cutting deck always gives optimal cutting results. The cutting deck is easily tilted up into service position, which makes it easy to clean and service.

The 300- and 400-series Riders are equipped with an attachment frame for easy shifting between cutting deck and front-mounted tools such as flail mower, broom, snow thrower and snow blade

HUSQVARNA RIDER 316T AWD

Powerful and versatile Rider with twin-cylinder engine and All-Wheel-Drive. Optional 94, 103 or 112 cm Combi cutting decks, offering first-class BioClip® and rear ejection cutting. Suitable for landowners who demand superior efficiency, manoeuvrability and perfect results all year round.

Combi deck 103 cm.
Engine Kawasaki FS Series 9.6 kW

€ 7,699^{.99}

Blade Brake Clutch for crossing areas without grass, cancels the need to kill the engine.

Handle height adjustment for improved user comfort

AFTech™ – the cutting deck, blade and chute are designed to produce optimum air flow for first-class cutting results

High-specification engines from world-leading manufacturers

Easy to handle collector for convenient removal, emptying and replacement

Central cutting height adjustment for easy and convenient setting

FROM **€ 799^{.99}**

HUSQVARNA LC353

The LC 353 range has a durable design to last for many years. It features AutoWalk™ 2 for ergonomic and comfortable speed control. The blade brake clutch (Optional) allows you to engage and disengage the blade without starting and stopping the engine. All models create a fantastic cutting result and lawn appearance thanks to the AFTech™ technology: the cutting blade is engineered to create an upward airflow as it rotates. This airflow lifts up the grass in order to create an evenly cut lawn.

All LC353 models come as standard with:

Briggs & Stratton 675EXI Engine, 2.6kw, AutoWalk™ 2, Cut width 53cm.

Models available with different features:

LC 353V - €799.99 - Standard Model (No Electric Start or Blade Brake Clutch)

LC 353VE - €949.99 - Electric Push Button Ignition model

LC 353VB - €999.99 - Blade Brake Clutch model

€ 639^{.99}

555 - €899.99 59.8 cm³, 3.1kW, 18", 5.7 kg

UNDER THE HOOD THERE IS TOP NOTCH TECHNOLOGY

GPS ASSISTED NAVIGATION

An onboard GPS system creates a map of the garden, including where the boundary and guide wires are installed. Husqvarna Automower® will then know which parts of the garden it has covered and adjusts its mowing pattern accordingly. This will ensure optimized lawn coverage and an excellent cutting result.

REMOTE CONTROL

Automower® Connect gives you full control over your Husqvarna Automower® from wherever you are thanks to GPS tracking and connection via the mobile phone network. Among other things it enables starting and stopping. With the app you can also track your mower if stopped or removed.

REMOTE OBJECT DETECTION

Your Husqvarna Automower® slow downs as soon as it senses a nearby object, reducing the risk of collision damage.

AUTOMATIC PASSAGE HANDLING

All Husqvarna Automower® models can pass through passages as narrow as 60 cm. Automatic passage handling also makes installation easier and reduces track marks.

WEATHER TIMER

Adapts the time spent mowing so Husqvarna Automower® works more in periods of strong grass growth and less in dry, sunny weather.

HEADLIGHTS

Effective LED light kit that allows you to see the product work even in the dark.

ULTRASILENT DRIVE

Innovative motor design further reduces noise from the wheel drive system.

ELECTRIC CUTTING HEIGHT ADJUSTMENT

Adjust the length of your grass with a simple push of a button on the keypad.

GUIDE WIRE

The unique guide wire offers a direct, reliable return path for Husqvarna Automower®. Selected models may also use the boundary wire to find the way back to the charge station.

SEARCH METHODS

Several methods possible for the mower to find the fastest and most efficient way back to the charging station for recharging:

- + signal from the antenna in the charging station (reach 0-7 meter)
- + follow guide wire (1-3 pcs depending on model)
- + follow boundary wire

WHEEL PLATFORMS

Optimized platform design for greater efficiency and better accessibility in different types of gardens.

TERRAIN/SLOPE PERFORMANCE

Husqvarna Automower® can cope with slopes up to 45% (24°). The optional terrain kit accessory improves performance in certain conditions. The built-in slope compensation feature ensures a perfectly cut lawn, even on slopes and other challenging surfaces.

PROFILES

Memories for groups of settings. Great if, for example, you operate the mower in more than one location.

SPIRAL CUTTING

When it enters an area with taller grass than average, Husqvarna Automower® will work in a concentrated systematic spiral pattern to even out differences.

SPOTCUTTING

Start spiral cutting immediately. Great if you want Husqvarna Automower® to focus on a small area.

LARGE DISPLAY

High resolution display for comfortable programming of the individual settings.

BACKLIT KEYPAD

For easier interaction with your Husqvarna Automower® at night.

REPLACEABLE TOP COVER

Possibility to personalize the robotic mower by changing colour of the top cover. Available as accessory in polar white or Husqvarna orange colour

CHARGE STATION PARK BUTTON

Calls the mower home to park in the charge station at the push of a button.

RUBBER BUMPER

Protects the body during low speed collisions.

REMOTE START POINTS

Allows you to start Husqvarna Automower® away from the charge station. Useful when there are narrow passages separating lawn areas, to ensure a uniform cutting result throughout the lawn.

SKID PLATE

Reduces energy consumption and helps keep blades clean.

THEFT PROTECTION

Husqvarna Automower® is equipped with an alarm and cannot be used without the personal pin code. And with Automower® Connect you can also receive alarms and track its position in case of theft.

RAZOR-SHARP BLADES

Sharp, pivoting blades cut rather than tear grass, as well as reducing noise and energy consumption.

DUAL CUTTING DIRECTIONS

The thin razor blades have two edges and the blade motor spins in both directions to maximize blade life.

INTUITIVE GRAPHIC MENU STRUCTURE

Makes it very easy to configure Husqvarna Automower® to suit your garden and personal preferences.

ALL RUBBER TIRES

Good wear resistance and low noise when running over hard surfaces.

DESIGNED FOR LONG LIFE

High quality brushless motors, stainless bearings and rubber sealings ensure long-lasting functionality.

EXPLANATION OF COLORCODED HEADLINES

YOUR HUSQVARNA DEALER CAN ASSIST WITH ADVICE AND INSTALLATION SERVICE

Consulting your Husqvarna dealer is always a good way to secure that you get the optimal model of Husqvarna Automower®. To secure maximum convenience and trouble-free operation we recommend that you also let the dealer take care of the installation. Overhaul and winter storage are also things that your dealer can help you with. This so you will be ready to mow as soon as spring arrives.

PROFESSIONAL SUPPORT FOR PROFESSIONAL DEMANDS

Your Husqvarna dealer can advise you on machinery and services that suit your needs. He can also supply you with Genuine Husqvarna spare parts, lubricants and accessories as well as adequate service and repair to keep your Husqvarna equipment ready for your next job. Our dedicated dealers provide professional services for your machines, to safeguard optimal performance and reliability. The Husqvarna dealer network consists of 25.000 locations worldwide, so we're never far away.

Keep your machines in original shape with Genuine Husqvarna spare parts.

Our product development always starts with you the user in focus, to make your work less strenuous and more efficient. This is also why every single part in a Husqvarna machine is rigorously tested to ensure it interacts optimally with all the other parts. This interaction produces the reliability and characteristics you have the right to expect from a Husqvarna while proper servicing and using the right parts mean your equipment performs safely, reliably and economically in the long run. Genuine Husqvarna spare parts allow you to get the most out of your Husqvarna.

We want you to get the best service possible. Your local registered Husqvarna Dealer is listed below.

We are happy to confirm that Charleville Plant Hire have exceeded all the standards expected from them as A Registered Husqvarna Dealership.
